FIGURE 8. NARCO-PARAMILITARY VOTING BETWEEN 1998 AND 20010 IN COLOMBIA

Source: Authors based on Judicial Processes and the National Registry of the Civil State.

Narco-paramilitary votes were calculated following these steps. First, Congressmen, Mayors, and Governors who have been already found guilty for their linkages with paramilitaries were identified according to the files of Judicial Process for Justice and Peace. Second, number of votes by city and state of each of these politicians were counted according to the National Registry for the Civil State in Colombia.
